### Global Stock Investing Redefined

The Horizons Active Global Dividend ETF ("HAZ") is an actively managed ETF that seeks to provide regular dividend income and modest long-term capital growth by investing in some of the world's best dividend paying stocks (listed in North America). HAZ is sub-advised by Guardian Capital LP ("Guardian"), which uses an innovative stock selection process developed by its Systematic Strategies Team. The sub-advisor may, at its discretion, hedge some or all non-Canadian dollar currency exposure to the Canadian dollar.

### Guardian's GPS Investment Approach

Guardian's GPS investment approach focuses on three key fundamental drivers: Growth of dividends, Payout of cash flow, and Sustainability of the payout profile. Having a portfolio of stocks that offers a combination of these three factors is the core of the GPS strategy, as a way to invest in dividend stocks.

By focusing on these three drivers, Guardian aims to identify a much broader range of opportunities compared to an approach that focuses on yield alone.

#### GROWTH

Dividend growth is a significant factor driving investor returns in the long term

#### PAYOUT

Investors reward the quality of payout; not just the quantity of the payout

#### SUSTAINABILITY

Companies must have a competitive advantage to sustain growth

### Key Features:

- Guardian's proprietary GPS Stock Selection Process targets dividend stocks that offer a combination of dividend Growth, Payout and Sustainability
- Diversified by dividend-paying stock type, offering a mix of high-dividend-paying mature companies and higher-growth companies with lower yields that have the potential for greater price appreciation
- Guardian aims to outperform a passive indexing strategy
- Active Portfolio Management to navigate through all market cycles

## Different Types of Dividend Stocks

Paying attention to both dividend yield and dividend growth ensures that opportunities can be captured along the growth spectrum, from lower-yielding/high-growth companies in sectors such as Technology, all the way through to mature/slower-growing companies in sectors such as Utilities and Telecoms.

Eligible stocks fall into three different dividend stock categories: **Dividend Achievers**, **Dividend Growers** and **Dividend Payers**.

## Guardian Capital Group Limited

Guardian Capital Group Limited is a diversified financial services company founded in 1962. Guardian provides institutional and private wealth investment management services; provides financial services to international investors; provides services to financial advisors in its national mutual fund dealer, securities dealer, and insurance distribution network; and maintains and manages a proprietary investment portfolio. Its Common and Class A shares are listed on the Toronto Stock Exchange, and Guardian is currently celebrating 50 years as a listed company.
